2/2/84

Dear Larry,

Thanks for your letter. Glad you found WHITEWASH worthwhile. There are three more in thatnseries and Post Mortem, the last I did.

You say that you were on a USAF general's staff when JFK was assassinated. Where? Was there any alert of any kind? I gather not if they let most peoplego home because no work was being done.

Reagan and Co. are also doing all they can to gut and frustrate the Freedom of Information Act under which hundreds of thousands of once-secret pages of official records have been forced into disclosure. You might write your Senators and Congressmen asking that they leave the Act entirely alone, not to amend it in any way.

I wish I knew whether Larry O'Brien knows anything not known and that if he did he would be willing to talk. Which I doubt on all counts.

He has resigned from the basketball assn.

Best wishes,
